MAKING YOUR CONTRACT

You must calculate **Trick Points** + **Bonus Points** = Total **Positive Score**

Score goes in Declarer's column (NS or EW)

Trick Points

Majors	30 points per trick over Book
Minors	20 points per trick over Book
NT	30 points per trick over Book PLUS 10 extra points at end

Bonus Points

Game	NonVul	300 points
	Vul	500 points
Partial	NonVul or Vul	50 points

DID NOT MAKE YOUR CONTRACT?

The Opponents earn a positive score, and you earn the negative of that score.

If you are E-W the points go in the N-S box and vice versa.

Does Not Matter Whether You Are in Game or Not

NonVul: Give 50 points per Down trick to Opponents

Vul: Give 100 points per Down trick to Opponents

Vulnerability DOES matter if you do not make your contract whether you are in Game or not.
